## About Us

Quality Inspectors LTD (QIL) is a renowned expert in Non-Destructive Testing (NDT) technology. It was established in Nairobi, Kenya, in 1994. With a strong commitment to excellence and a focus on advanced technology, efficiency, and safety-based services, QIL has become a leader in NDT and related safety services in the East and Central Africa region, positioning itself as a global service provider. Our personnel are rigorously trained, highly qualified, and certified according to both national and internationally recognized accreditation systems.

## Vision

QIL'S vision is to be recognized as an international leader in Non -Destructive Testing and Radiation monitoring through innovation, regional collaboration, marketing dominance, project excellence, and unparalleled customer service.

## Mission

QIL is committed to maintaining technical excellence, customer satisfaction, trust and integrity by delivering quality inspection and monitoring services that conform to industry best practices, with a focus on continuous process improvement.

## Quality Statement

QIL is dedicated to ensuring that every service it delivers fully satisfies customer requirements and expectations. The company strives to make the entire service delivery process a source of customer satisfaction and pleasure.

## Key Achievements and strength

- Vast Experience: QIL has over two decades of experience in the NDT industry.
- Modern Technology: QIL continuously adopts modern technology in its services.
- Personnel Training: Investment in personnel training and development.
- Regional Presence: Ability to respond to client needs 24/7 in the region.
- Flexible Testing Methods: Utilizes multiple optional testing methods.
- Prestigious Reputation: Earned prestige in the industry through quality service.
- Diverse Projects: Successfully completed projects in various sectors, including structural integrity assessment, oil and gas, and power generation.
- Extensive Network: Multiple offices across Kenya and liaison offices in neighboring countries
- Oil and Gas: Specialized testing and inspection equipment.
- Quality of service: Adhere to National and international standards.
- QA/QC service: Partnering with global companies and institutions in enhancing our service delivery.

# INDUSTRY FOCUS

- Oil and gas Drilling Rigs, Testing and Inspection.
- Storage tanks for Oil, Gas and water
- Country pipelines for Oil, Gas, and Water
- Petrol-Chemical industries.
- Buildings & Civil Engineering structures
- Electric Power Generation Plants.
- Air and marine port facilities
- Road and Rail Transport Vehicles.
- Telecommunication and Drone Aerial Survey
- Agri - Industries
- Environmental control.
- Welding and Fabrication
- Technical Training
- Research and Development
